

Appendix I: Proposition 39 K-12 Allocations by Legislative District

This Appendix contains information on Proposition 39 K-12 allocations and energy savings by legislative district through June 30, 2018. It is based on data collected by the Energy Commission.¹ For each district, the total number of school sites identified in Energy Expenditure Plans is included, as well as the Proposition 39 cost/investment at each site, the annual electric savings, the annual dollar savings, and whether the projects at the school sites are completed or still in-progress. A fifteen-year estimate of electric savings and dollar savings is also included. This information is based on data collected by the Energy Commission

Finally, the appendix highlights similar information for districts with school sites located within disadvantaged communities (DAC), as defined by the CalEnviroScreen 3.0 tool.² This is different than a Proposition 39 disadvantaged Local Educational Agency (LEA) as defined in Senate Bill 73 (Committee on Budget and Fiscal Review, Chapter 29, Statutes of 2013), which identifies a disadvantaged LEA as one that has a ratio of free and reduced-priced meals (FRPM)/average daily attendance (ADA) of 0.75 or greater.
